

Lorne Infection & Immunity Conference 2017 Australia

15-17 February
Mantra Lorne

lorneinfectionimmunity.org

50 free student registrations!
More student talks in 2017!
Student and ECR Awards!

*Join microbiologists, immunologists, clinicians
and industry for 3 days of networking and
science to address problems in infectious
diseases and immunity*

THEMES

Pathogenesis of Infection

Innate Immunity

Adaptive Immunity

Systems Biology

Emerging Infectious Diseases

Clinical/Translational Research

Inflammatory Diseases

Microbiota and Immunity

Vaccines

KEY DATES

Early-bird Registration and Oral Abstracts:

Friday 28 October 2016

Poster Abstracts:

Friday 2 December 2016

HOSTED BY

Victorian Infection
& Immunity Network

AID

Australian Infectious Diseases
research centre

CONFIRMED SPEAKERS

Sonja Best | National Institute of Allergy and Infectious
Diseases, USA

Host-flavivirus interactions; IFN-stimulated genes

Caroline Demangel | Pasteur Institute, France
Mycobacteria, mycolactone, inflammation and metabolomics

George Gao | Chinese Academy of Sciences, China
Interspecies transmission of pathogens; enveloped virus-host
interaction; molecular immune recognition

Nancy Haigwood | Oregon Health and Science
University, USA

HIV transmission, immunity and vaccine development

Marion Pepper | University of Washington, USA
Immunological memory; adaptive response to malaria;
tetramer-based enrichment strategies

Bali Pulendran | Emory Vaccine Centre, USA
Innate immune system regulation of adaptive immune
responses to pathogens; vaccine and therapeutic design

Thierry Soldati | University of Geneva, Switzerland
Phagocytosis; host-pathogen interactions; anti-mycobacterial
compounds

Dominique Soldati-Favre | University of Geneva,
Switzerland

Apicomplexa motion, host cell attachment and invasion

**+ Australian guest speakers and oral
presentations selected from abstracts**
